2

**E-Government
Development
Index**

E-Government Development Index

The E-Government Development Index presents the state of E-Government Development of the United Nations Member States. Along with an assessment of the website development patterns in a country, the E-Government Development index incorporates the access characteristics, such as the infrastructure and educational levels, to reflect how a country is using information technologies to promote access and inclusion of its people.

The EGDI is a composite measure of three important dimensions of e-government

- Provision of online services.
- Telecommunication connectivity .
- Human capacity.

4

**Online
Service
Index**

Online Service Index (OSI)

The Online Service Index (OSI) of countries are assessed from each country's national website in the native language, including the national portal, e services portal and e-participation portal, as well as the websites of the related ministries of education, labour, social services, health, finance and environment as applicable. The outcome is an enhanced quantitative Survey with a wider range of point distributions reflecting differences in levels of e-government development among countries.

Chart 4.1
OSI index score of Sri Lanka in 2022.

Chart 4.2
Online Service Index of Commonwealth Countries in 2022

6

**Telecommunication
Infrastructure
Index**

Telecommunication Infrastructure Index (TII)

The Telecommunication Infrastructure Index (TII) is an arithmetic average composite of five indicators:

- (i) Estimated internet users per 100 inhabitants
- (ii) Number of main fixed telephone lines per 100 inhabitants
- (iii) Number of mobile subscribers per 100 inhabitants
- (iv) Number of wireless broadband subscriptions per 100 inhabitants
- (v) Number of fixed broadband subscriptions per 100 inhabitants.

Chart 6.1
Telecommunication Index Score of Sri Lanka in 2022.

Chart 6.2
Proportion of Telecommunication Infrastructure Index of Commonwealth Countries in 2022

Measure: Index Score
Source: UN Public Administration (<https://publicadministration.un.org/egovkb/Data-Center>)

Chart 6.3
Telecommunication Infrastructure Index of Commonwealth
Countries in 2022

Measure: Index Score
Source: UN Public Administration (<https://publicadministration.un.org/egovkb/Data-Center>)

The background of the page is a solid dark blue color. In the lower half, there are several overlapping, wavy lines in a lighter shade of blue, creating a sense of movement and depth. These lines are composed of many thin, parallel curves that flow across the page.

7

**Human
Capital
Index**

Human Capital Index

The Human Capital Index (HCI) consists of four components:

- (i) Adult literacy rate
- (ii) The combined primary, secondary and tertiary gross enrolment ratio
- (iii) Expected years of schooling
- (iv) Average years of schooling.

Chart 7.1
Human Capital Index score of Sri Lanka in 2022.

12

E-Participation
Index

E-Participation Index (EPI)

E-Participation Index (EPI) extends the dimension of the Survey by focusing on the use of online services to facilitate provision of information by governments to citizens ("e-information sharing"), interaction with stakeholders ("e-consultation") and engagement in decision-making processes ("e-decision-making").

E-Participation Index (EPI) - Framework

Appendix: Data Sources

All data included in this report are collected up to February 2024, representing the latest available information from the specified sources. It is essential to note that, due to varying update frequencies, some countries may not have the most recent data reflected in this report. Consequently, the information for these countries is subject to updates post- submission of the report.

The data featured on the page of key findings are compiled using the latest available data from reputable open sources for the countries, along with a comparative analysis of the indicator among Commonwealth nations.

The extensive task included aggregating data from the sources and conducting analysis utilizing one of the most powerful analytical tool.

For a detailed overview of the sources and references used in this report, kindly refer to the references as below:

- ITU (<https://www.itu.int/en/ITU-D/Statistics/Dashboards/Pages/Digital-Development.aspx>)
- UN Public Administration (<https://publicadministration.un.org/egovkb/Data-Center>)
- Oxford Insights (<https://oxfordinsights.com/ai-readiness/ai-readiness-index/>)
